

JPAG symposium programme

Thursday 7th October 2021

The reality of ATMP delivery: pharmacy learning and future developments

VIRTUAL EVENT : 10am-4pm (UK BST)

Advanced Therapy Medicinal Products (ATMPs) have revolutionised the treatment of some diseases, particularly those which were previously regarded as intractable to treatment and cure. ATMPs are biological medicines and can be defined by four main categories; in-vivo gene therapies, ex-vivo gene therapies, somatic cellular therapies and tissue engineered products.

As increasing numbers of ATMPs are now being seen through clinical trials and acquiring marketing authorisations. This joint JPAG and Pan UK Pharmacy Working Group for ATMPs symposium will inform and educate the audience about hot topics in the ATMP world.

Tuesday 16th November 2021

The JPAG pharmaceutical analysis careers fair 2021

VIRTUAL EVENT : 1pm-4pm (UK GMT)

JPAG presents the pharmaceutical analysis symposium for postgraduate students and early career stage scientists, including those in industry.

We will be holding a Networking and Careers Fair with the opportunity to meet on-line with big industry pharma and other key contacts and take advantage of the great networking opportunities. This could be the event to provide a step-change to your professional career. Your future employer could be here.

This event will be held on-line on the day before a symposium for our major awards, so please also take a look at that also.

Details for both the careers fair and the awards event will appear here soon.

Register now at www.jpag.org/cp151

Wednesday 17th November 2021

The JPAG pharmaceutical analysis research awards 2021

VIRTUAL EVENT : 1pm-4pm (UK GMT)

JPAG presents the pharmaceutical analysis symposium for postgraduate students and early career stage scientists, including those in industry. This will provide the opportunity for delegates to showcase their work and network with peers, academics and industrial scientists through oral and poster presentations. There will be a £1,000 first prize and £250 second prize for the best oral presentations as well as £200 first prize and two runner-up prizes of £100 for the best posters. **Registration is free for all students, early career stage scientists and their supervisors/managers**, but we highly encourage students and early career stage scientists delegates to submit an abstract for poster or oral presentation to this exciting annual JPAG event.

The deadline for submission of abstracts is Tuesday 31st August 2021

Keynote speaker: Prof David Cowan OBE FKC FRPharmS FRSB, King's College London

He will be talking to us about detecting drug use in sport activities.

In addition, held on-line one day before this awards Symposium, there will be a Networking and Careers Fair with the opportunity to meet on-line with big industry pharma and other key contacts and take advantage of the great networking opportunities. This could be the event to provide a step-change to your professional career. Your future employer could be here.

Further details on both the awards symposium and the careers fair will appear here soon.
